## **INTRODUCTION**

Habitat for Humanity Portland/Metro East has developed this Request for Proposal (RFP) to help organizations and contractors bid on specific scopes of work for the construction of Habitat homes.

Since 1981, we have built over 250 homes in the Portland/Metro East service area (Multnomah County and northern Clackamas County). Our commitment to building simple, decent, affordable housing harnesses the good will of over 3,500 volunteers per year. Habitat homes also require the specialized services of vendors to perform professional work.

Most Habitat builds are multi-family. As a result, our organization and any subcontractors are able to achieve economies of scale in time and labor in undertaking these projects. Because Habitat is currently building 20-30 homes per year, there are ongoing opportunities for firms that can consistently demonstrate excellent performance.

For more information about Habitat's mission and approach, as well as photographs of completed homes and details on our programs and current builds, go to our web site at <http://habitatportlandmetro.org/our-builds/>.

## **PROJECT BACKGROUND**

Habitat will break ground on 25 sustainably built homes located in the Rockwood neighborhood in 2015, graciously designed with the assistance of Ankrom Moison Architects, Inc. The City of Gresham helped Habitat purchase the large 1.64-acre parcel with Housing and Urban Development HOME funds, and so far, Habitat has removed two blighted structures from the parcel, improving the appearance of this highly visible corner lot.

The project will be constructed in two phases with a mix of volunteer and skilled labor. The first phase of 12 units will be completed by December 1<sup>st</sup>, 2015. This first phase will include the entire site infrastructure for parking, sidewalks, irrigation and common spaces. The second phase will be for the remaining 13 unit is expected to start and completed throughout the course of 2016. This plumbing scope of work covers the site plumbing work and the completion the first 12 units.

To date, Habitat has built and sold over 70 homes in Gresham. Most of these have been in and around the Rockwood area, where the City has completed a number of projects to improve streets, help small businesses, enhance parks and other community amenities. Habitat's consistent home building efforts in Rockwood are stabilizing classrooms and contributing to the larger efforts aimed at making an attractive and high quality neighborhood for families.

**PROCUREMENT PROCEDURE**

Habitat solicits bids for the procurement of construction-related supplies and subcontracted services. Habitat makes a good faith effort to include all interested parties in the RFP process. Habitat maintains a list of vendors and solicits RFP responses. In addition, Habitat advertises the availability of RFPs for the construction of Habitat Homes on industry websites and in industry publications. Habitat contacts contractors listed on the OMWESB website, City of Portland site, and other relevant information to contact certified MBE/WBE/ESB/DBE businesses. RFPs are available at <http://habitatportlandmetro.org/our-builds/bid-opportunities/> if you do not have electronic access; please contact Habitat for Humanity at 503-287-9529 to review the RFP, plans and specifications for the above described project, including the Division Supplemental site plan, which shows.

This RFP provides the scope of work (EXHIBIT A) and incorporates the permitted plans and specifications as part of the RFP. If there is any conflict between the scope of work in this RFP and the permitted plans and specification, the work described in the permitted plans and specifications shall apply.

Habitat receives in-kind contributions including materials and labor to construct complete homes, which could affect the timeline for construction of the units described in the project description. If Habitat delays the contracted work beyond one year from the date of contract then the contract amounts in this bid shall be increased in direct proportion to the increase in the Consumer Price Index of that year. If the CPI remains flat or decreases, then the contract amount shall remain the same as presented in this request for proposals.
